## Company News

- **Jordan's Social Security Corporation (SSC)** plans to participate in the JD 1.2 billion (USD 1.69 billion) expansion project of **Jordan Petroleum Refinery Company (JOPT)**.

SSC intends to keep at least a 20% stake in JOPT after the expansion and will raise the stake in the project to reach 26% through a public offering that will be launched by the new partner **JOPT** who will implement the expansion project.

The expansion will boost the refinery's capacity to 17,500 tons a day from the current 14,000 tons a day.

- Jordan's **Arab Bank Group (ARBK)** announced that Standard and Poor's Rating Services had affirmed its 'A-' foreign currency long-term rating with a stable outlook due to the bank's healthy financial position.

The rating reflected Arab Bank's superior geographic diversification, robust capitalization, strong liquidity and solid track record of good asset quality.

The bank, one of the Middle East's major financial institutions, saw its assets rise to USD 49.56 billion as of September 30, 2009, against USD 45.63 billion at the end of year 2008.

In addition, **Arab Bank**, Jordan's largest lender, declared that it was unaffected by the Dubai crisis and had minimal exposure to troubled conglomerate Dubai World. Most Jordanian banks, including Arab Bank, are increasing their provisions to cover possible defaults and non-performing loans by businesses and real-estate firms reeling from the impact of the global downturn on the aid-dependent economy.

- **Jordan Telecom (JTEL)** - Orange received three prestigious awards in the second South Asia, Middle East and North Africa (SAMENA) awards ceremony.

Those three awards were as follows:

1. Best Convergent Operator of the Year.
2. Best Fixed Operator of the Year.
3. Best Architect of the Year.

Jordan Telecom was granted these awards in recognition of its commitment to excel in the telecom industry.

- **Royal Jordanian (RJAL)** extended its contract with Jordan Flight Catering Company-JFCCO (trading as Alpha Flight) for the exclusive provision of in-flight catering and ancillary services for the Royal Jordanian flights departing from Queen Alia International Airport and the other Jordanian airports.

Through the 10-year agreement, starting with August 2011 (the current agreement's end term date) Royal Jordanian will benefit from improved commercial terms. Alpha Flight Services will give the airline the opportunity to purchase in-flight catering at favored prices including volume discount, in recognition of the growing number of passengers year after another.

- **Cairo Amman Bank (CABK)** launched a new service offering its clients quick cash loans through its network of ATMs. The launch of this service comes in line with the bank's continuous efforts to meet clients' needs by introducing innovative banking services that ensure secure and smooth transactions at all times.

Through its network of 80 branches across the Kingdom, Cairo Amman Bank is always keen on implementing the latest technologies in the banking industry.

## Economy News

- Jordan's budget deficit rose to JD 891.7 million (USD 1.3 billion) in the first ten months of 2009, a 78% rise compared to the same period in year 2008; the latest preliminary figures included only JD 144.5 million of grants from donor countries compared to JD 493.0 million the kingdom received in the same period year 2008.

Government officials declared that the 2009 deficit should remain within a forecast of JD 1.1 billion (USD 1.6 billion) or 7% of gross domestic product (GDP), while economic growth slows by almost half to between 3% and 4%.

The aid-dependent kingdom has close business and economic ties to Gulf Arab governments, who have been hit hard by a drop of oil prices; their main source of state revenue. The global downturn has also hit key earners, such as tourism and exports.

- Jordan's annual inflation rate has dropped from a peak of 14% in year 2008 on the back of record oil and commodity prices to a range of 1% to 3% in year 2009.

The Central Bank of Jordan sees economic growth picking up in year 2010 to 4%-4.5%. The economies of the Middle East should strive for sustainable growth rates of up to 8% to help create jobs.

- The government is proceeding with a project to expand the Jordanian refinery, amid calls for full liberation of the energy market, including prospects of building a new facility.

The strategy calls for upgrading the capacity of the refinery, the government has studied all options including closing down the refinery and relying on exports, but the outcome of its studies proved that expanding and developing the refinery is the most viable option.

The decision came to regulate the market, pending the completion of a bidding process aimed at attracting a strategic partner to help implement the expansion project. The refinery has received 15 proposals from consortiums showing interest in the project.

- The Natural Resources Authority (NRA) will begin exploring for Crude Phosphate in the Jabal Kabed and Abu Meel areas in the south of the Kingdom under a 24-month exploration program with the cost of JD 4.0 million.

The required funding for the exploration will be allocated in years 2010 and 2011 budgets and will float a tender at the end of year 2011 for mining the crude Phosphate through a specialized consulting firm.

Before signing the final deal for mining with the winning bidder, the government will forward the deal to the **Jordan Phosphate Mines Company (JOPH)** to study implementing the excavations within 90 days in accordance with the agreement signed between the Jordanian Investment Company and the Brunei Investment agency.
